

# Further info

## How much will it cost?

Nothing. There are no course fees and you will not have to pay for transport between school and college. You will have to make, and pay for, your own arrangements to get to and from work if you get a summer placement.

## How do I get to College?

Transport arrangements from school will be made for you, using public transport where possible to return home or to the hostel as applicable. There will be no charge to you for this.

## Where do I get more information?

Speak to your Pupil Support Teacher or visit:

[www.shetland.uhi.ac.uk/schools](http://www.shetland.uhi.ac.uk/schools)

**Closing date for applications - Wednesday 22nd March 2019**

## Construction Studies

Take your first steps into the construction industry  
with this Academy Programme

## What?

National Certificate (NC) in Built Environment - units include Groundworks and Substructure, Design for Architecture, and Site Surveying.

## Where?

Shetland College UHI  
Lerwick

With access to a fully-equipped joinery and carpentry workshop and AutoCAD software suite.

## When?

Tuesdays & Thursdays  
1.30pm - 4.30pm

Your school will timetable your subjects to make sure you don't miss school classes.

## How?

Over two years you'll work towards your qualification

You will study part-time, which involves attendance at college as well as work experience. You will also study three school subjects in S5 and in S6. As you will be working in the summer you should have some free periods incorporated into your school timetable.

## Entry requirements

You should be in S5 or S6, with three N5 qualifications (or equivalent), preferably with Maths, English and a Science or Technical subject.

Speak to your Pupil Support Teacher if you would like to apply. You can also complete an application form and hand it in to your Pupil Support Teacher by **22nd March 2019**.  
Download the form online:

[www.shetland.uhi.ac.uk/schools](http://www.shetland.uhi.ac.uk/schools)

## Work experience

As part of this free programme you will also be linked to a workplace mentor, who will support you as you develop your skills and plan for your future career. You will get work experience. This will be discussed on an individual basis.
